07-821-00	Small Instrument Tray

Designed in collaboration with

MICHAEL T. LAWTON, MD

President and CEO, Barrow Neurological Institute
 Professor and Chair, Neurosurgery
 Chief, Neurovascular Surgery

Michael T. Lawton MD is the chairman of the Department of Neurological Surgery at the Barrow Neurological Institute, as well as its President and Chief Executive Officer and the Robert F. Spetzler Endowed Chair in Neurosciences. He is chief of vascular and skull base neurosurgery, specializing in the surgical treatment of aneurysms, arteriovenous malformations, arteriovenous fistulas, cavernous malformations, and cerebral revascularization, including carotid endarterectomy. As the leader of the largest cerebrovascular center in the country, he has experience in surgically treating over 4800 brain aneurysms and over 900 AVMs. He also practices skull base tumor surgery.

He has published over 600 peer-reviewed articles and 6 textbooks, including Seven AVMs, Seven Bypasses, and Seven Aneurysms, which has won numerous awards and sold more copies than Yasargil's Microneurosurgery. His awards include the Young Neurosurgeon Award from the World Federation of Neurological Societies, and an Impact Award as Exceptional Innovator from the Greater Phoenix Chamber. He has given over 800 invited lectures nationally and internationally, including visiting professorships at over 50 neurosurgical institutions. His observership in vascular neurosurgery has hosted more the 100 neurosurgeons and residents nationally and internationally. He co-founded Mission:BRAIN, a teaching mission to raise the level of neurosurgery practiced in developing countries, and has conducted missions in Mexico, the Philippines, and Peru.
